

Shell confers 'Professional Haulier' status on Tristar

Tristar has been assessed and certified by Shell Markets Middle East (SMME) as its first 'Professional Haulier' in the Middle East and South Asia (MESA) region for scoring above the mandatory requirements of a recent Global Haulier Assessment (GHA) audit conducted by a team of Shell executives on its UAE operations. The GHA is a comprehensive audit tool used by Shell globally to assess the operations of its road transport hauliers which cover the Seven Pillars, namely Driver Management, Journey Management, Vehicle Management, HSSE Management, Organizational Behavior, Customer Service, and Financial Efficiency.
