

## Tristar celebrates 'World Day for Safety and Health at Work'

Aligning with the spirit of 'World Day for Safety and Health at Work' which falls every April 28, the Tristar Group held its annual Tristar Global Safety Day event on April 26 to create awareness on truck driver safety and daily safety practices at work. The event was celebrated in Tristar's head office and in various countries. In Dubai, employees, customers and partners gathered for insightful lectures presented by Tristar's senior managers and representatives from ECOLAB, and WABCO vehicle control system.

The speakers reiterated that road and industrial accidents are preventable if all members of the organization adhere to safety principles at heart and mind and make safe practices part of their day to day living. The theme for this year: **'Safety isn't a slogan, it's a way of life'**. Three Tristar personnel were given incentives by Shivananda Baikady, GM of the Road Transport and Warehousing business, for being safety champions in their respective departments.
