

Tristar Leadership Summit

Tristar is aiming to achieve USD700 million in revenues by the end of 2017. This was the commitment made by its senior managers and key performers during the two-day (March 28 and 29) annual Tristar Leadership Summit recently held at the Anantara Dubai The Palm Resort & Spa. Tristar Group CEO Eugene Mayne encouraged the participants to initiate innovative steps in increasing the revenues of the current business lines and also to create new income streams related to hydrocarbons, lubricants, chemicals and liquid gasses. Tristar has a global presence in 15 countries, with a strong focus on expanding its operations in Saudi Arabia and in the African continent.
